OUR PROGRAMES

GRANDMA MARCH DAY - www.martinki.org.mk

HAEMUS is legally safeguarding the custom "Martinki" in UNESCO as an intangible cultural heritage inscribed in the Representative list. "Martinki" is a regional custom related to tales and beliefs, shared by the population living in Romania, Bulgaria, North Macedonia, Moldova, Greece and Albania. Since HAEMUS was involved in the process of safeguarding and popularizing this old custom, we have managed to organize an annual event dedicated to popularization of the custom through interactive educational activities. Since 2014, every year a traditional manifestation is being organized around the 1st March, including: exhibitions, multilingual educational panels, a craft bazaar and children workshops. It is supported by the Ministry of culture of North Macedonia, Municipality of Skopje, and the private sector.

Young Explorer - www.mladistrazuvac.mk

In 2021 HAEMUS launched 'Young researcher', an educational program with pedagogical character dedicated to children and youth. The program accompanied by an online platform offers many pedagogical products through visualization, interpretation and illustration coloring books, printed books, booklets, notebooks, maps, social games, treasure hunts, interactive sets etc.

OUR PROGRAMES

SCUPINI ROMANI - ANCIENT ROMAN HERITAGE

Educational program dedicated to the ancient Roman culture and heritage through interpretation and experimental archaeology. It consists of plenty portable exhibits (pottery, clothing, jewelry, knitted items, souvenirs) which are specially designed for this purpose and handmade by artists, artisans and craftsmen, inspired by the rich cultural heritage from the Roman period discovered in North Macedonia. The concept of SCUPINI ROMANI varies, depending on the circumstances, and it can be organized as an ambient setting, mobile exhibition or festival with live actors (historical reenactment).
